

(1B , 2 B, 3 B, 4 A - MIN)

Category	Actions Selected	Functional Basis for Inclusion	Specification for Action Implementation
Restoration of Upstream Riparian Habitat	-Restrict livestock grazing in riparian corridors	Improve habitat for all species and water quality	
Modification of Diversion Timing Patterns	-Modify diversion timing of in-Delta diversions	Reduce diversion impacts	
	-Modify diversion timing of export diversions	Reduce diversion impacts	
	-Coordinate SWP/CVP diversion timing	Reduce diversion impacts	
	-Modify diversion timing through Montezuma SCG	Reduce diversion impacts	
Increased Rates of Diversion Capacity	-Obtain approvals for expanded export capacities		
	-To reduce diversion impacts	Reduce diversion impacts	
	-Enlarge export pumping capacities		
	-To reduce diversion impacts	Reduce diversion impacts	
Installation of Barriers to Fish Movement	-Install barriers to block fish movement into Old River	Reduce diversion impacts	
Management of Agricultural Drainage	-Reduce or control volume of agricultural discharges	Reduce pollutant discharge	
	-Modify cropping and irrigation practices	Reduce pollutant discharge	
	-Avoid use of high-salinity irrigation water	Reduce pollutant discharge
